Arlington Industries' Patent Litigation Suit Against Hubbell

Scranton, Pa: Arlington Industries today announces the amicable resolution of Arlington's patent infringement lawsuit against Defendant Hubbell Incorporated. Arlington's suit alleged that Hubbell's Raco 38RAC and 40RAC Push-In cable connectors infringed Arlington's patent on its SNAP²IT® 38AST and 40AST connectors. Both parties respect intellectual property rights and Hubbell has redesigned its components to avoid any potential for overlap with Arlington's unexpired patent. In order to amicably resolve this matter, Hubbell has agreed to compensate Arlington for this issue without admitting any fault. The specifics of the settlement agreement remain confidential.

About Arlington Industries, Inc. (www.aifittings.com)

Arlington Industries, Inc. is a leading manufacturer of unique and innovative electrical and communications products. More than 80% of Arlington's product volume is manufactured in the United States at its plant in Scranton, Pennsylvania. Its products are protected by both domestic and foreign patents, which Arlington vigorously enforces.
