Holds pipe hangers, conduit secure on strut

NM1000
STRUT CLIP

**INSERT
STRUT CLIP
INTO STRUT...**

**TWIST
TO SECURE.**

Arlington's new UV-rated, non-metallic **Strut Clip™** offers the easy, efficient way to hold pipe hangers and conduit secure on strut.

Strut Clip works with most pipe hangers, including Arlington's QUICKLATCH™ pipe hangers.

Strut Clip is threaded for a 1/4"-20 screw, which ships installed.

Installation is quick and easy. Remove the screw. Slip Strut Clip into the strut; twist to secure. Install the pipe hanger.

- Saves time and money
- Provides sturdy conduit support on strut, indoors or outside
- Designed for use with a variety of conduit in multiple sizes
- Made of UV rated, non-metallic material

Non-Metallic STRUT CLIP™

Easy to install on strut

Insert Strut Clip into strut.

Twist Strut Clip to lock it securely in place.

Ready for the attachment of pipe hanger...

Arlington's QuickLatch™ Pipe Hanger installed on Strut Clip™

Use Arlington's UV rated, corrosion-resistant QuickLatch™ anywhere you'd use a pipe hanger. Non-metallic QuickLatch saves on labor – and costs about the same as a steel pipe hanger with bolt and nut. Mounts horizontal or vertical. Locks conduit securely in place. UL/CSA Listed.

Remove 1/4"-20 screw from Strut Clip. Install pipe hanger (Arlington QuickLatch shown).

Press on pipe with light finger pressure to lock pipe into QuickLatch.

QuickLatch holds pipe/conduit secure.
