## **Low Profile IN BOX<sup>®</sup> with Metal Box for New Construction Stucco, Textured Surfaces, & Rigid Siding**

Recessed, metallic electrical box with non-metallic, extra duty weatherproof in use cover for stucco over masonry or wood construction. Also for cementitious/fiber rigid lap siding. Accepts most single-gang wiring devices and uses standard indoor wall plates or a GFCI cover plate. Non-metallic portion and covers are UV rated plastic for long outdoor life. Compatible with DBVC and DBVW extra duty replacement covers on K-17.

PATENTED.

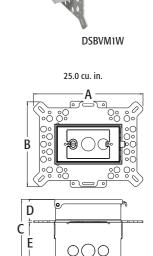

**ADDITIONAL PATENTS** PENDING.

Note: Meets 2021 NEC section 406.9 (B) for the protection of exterior outlets where an extra duty weatherproof in use cover is required for 15 or 20 AMP receptacles installed outdoors.

## FEATURES AND BENEFITS

- IN BOX replaces the installation of an electrical box and bubble cover assembly
- Install option: Cover is removable for easier device installation
- White, non-metallic portion and white cover are textured/paintable
- Installs in the wall, so less of it shows outside
- · Holes in flange allow stucco to bond firmly
- · For use with metal raceway systems · Grounding wire provided
- No gaskets required
- Weatherproof in use
- Extra duty
