CP9000 COVER FOR UNUSED RECESSED CEILING LIGHTS

WARNING : When Installing CP9000, Make sure power is OFF at main panel box before installing.

Installation Instructions:

1. Turn off power to recessed ceiling fixture to be covered.
2. Ensure that light bulb has been removed or fixture has been made inoperable.
3. As designs vary by manufacturer, determine if recessed light fixture has tabs to accept Spring Anchor Bracket. If so, insert Anchor Bracket into tabs as shown below.
4. If tabs are not present or are too close to fixture opening, check fixture for holes or slots to use to attach springs to fixture.
5. Attach springs to back of CP9000 Cover Plate.
6. Attach springs to inside of recessed can.
7. If desired, paint CP9000 Cover to match ceiling.

NOTE: All Wiring Must be According to NEC, State and Local Codes.

The manufacturer and distributor warrant this product for material and workmanship only, and shall not be liable for any special incident or consequential damages or for damages or loss caused by improper use or installation.
