ARLINGTON FLBC4502 CONCRETE BOX (SOLD SEPARATELY)

If you have any questions or if parts are missing from your FLBC4580, Please call our Customer Service Department at 1-800-233-4717. Do not call or return this product to your local store or distributor.

Installation Instructions:

1. Use saw to cut installed concrete box (FLBC4500 or FLBC4502 recommended, sold separately) to finished floor height after concrete has cured.
2. If low-voltage divider is to be used, cut same amount from the bottom of divider as was removed from the concrete can.
3. To use Blank Insert, Remove (4) #8 Screws from carpet flange to disassemble Leveling Ring Assembly. Slide Keystone Holder Insert outward to remove from Funnel. Install Blank Insert into Funnel and reinstall screws to reassemble Leveling Ring.
4. Wire receptacle. All wiring to be done in accordance with applicable National, State & Local Codes.
5. Seal underside of Flange with silicone sealant if desired (not included).
6. After installation of finished flooring, secure leveling ring assembly to installed Concrete Can using PVC cement
7. Option #1: Install Gasket & Blank Cover with (3) supplied #8 x 5/8" long flat head machine screws
 Option #2: Install In-Use cover...No screws required. Store Blank Cover with screws and gasket for future use.
