Spring-Mount Ceiling Cover Plate

The neatest way to cover unused 'high hat' cans

Arlington's new 9" diameter **CP9000** Ceiling Cover Plate is the neatest way to cover unused 'high hat' cans.

With no tools needed, installation couldn't be any faster! CP9000's spring anchor brackets slip between the turned down metal tabs inside the 'can' or directly to the 'can'.

Tension on the springs pulls the cover plate upwards against the ceiling, holding it securely in place.

- 9" diameter covers most 'high hat' cans
- Non-metallic paintable plastic
- Attractive way to hide an empty opening in ceiling

Spring-Mount Ceiling Cover Plate

The neatest way to cover unused 'high hat' cans

No tools!
Easy installation...

CP9000's spring anchor brackets slip into the channel created by the turned down metal tabs inside the 'can' (see A). If there are no metal tabs or they are too close to the fixture, remove the plastic anchor brackets and attach the extension springs directly to the 'can' (B).

Installation Method A
Slip plastic anchor brackets into the tabs in the 'can'.

Installation Method B
No tabs inside the can or too close to fixture. Attach the springs directly to the 'can'.

Attach the anchor brackets or extension springs to the inside of the 'can'. Tension on the springs pulls the cover plate snug against the ceiling. Paint cover as desired to match ceiling.

CP9000...The attractive way to cover unused 'high hats'!
