# Floor Box Kits with Steel Box and Cover

## Flush-to-Floor Receptacle Installations in New or Existing Floors

FLB6242MB  
One gang power,  
One gang low voltage

FLB6240MB  
Two power devices

Arlington's UL LISTED Steel FLOOR BOX KITS are the easy way to install receptacles flush in a NEW or EXISTING floor.

**Designed for flexibility, these kits offer multiple options for the device setup.**

Along with your two-gang steel box, you can get:

- One power, and one low voltage or
- Two power devices.

The floor box kits come with round, brass or nickel-plated brass covers. Four flip lids prevent water intrusion and protect the box when it's not in use.

We have **Trim Kits** with two power receptacles too. They include all of the components shown below *except the metal box*.
