Low Voltage Single-Gang Mounting Bracket

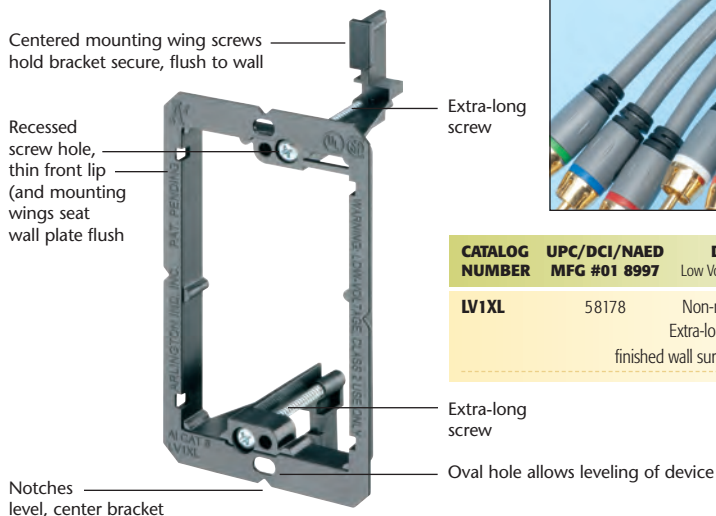

Extra-Long Screws for Thicker Walls • Existing Construction

LV1XL
Low Voltage
Mounting Bracket
with extra-long screws

Patent pending

NEW!

Our new single-gang **LV1XL** offers the same great features as our popular LV series of non-metallic low voltage mounting brackets. They offer the time- and money-saving solution to faster, easier mounting of Class 2 communications, computer and cable TV wiring in existing walls.

Designed for installations of low voltage wiring, LV1XL has **extra-long screws** for use with finished wall surfaces from 1/4" to 1-1/2" thick.

Get a better-looking job with these built-in features:

- Bracket is the template for the cutout. Level it. Trace along the inside of the bracket...easy!
- Recessed screw hole, thin front lip and mounting wings seat wall plate flush to the wall
- Centered mounting wings pull bracket secure and flush against wall
- Oval hole helps level device
- UL/CSA Listed

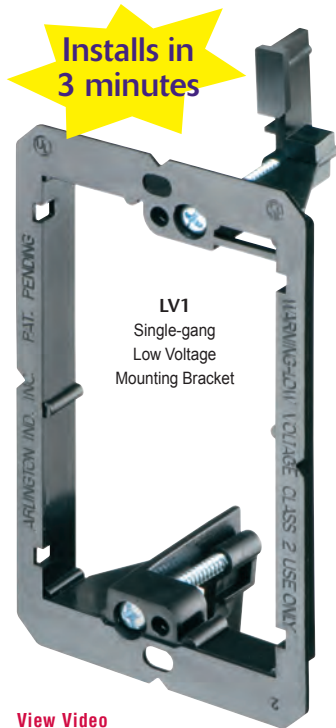

CATALOG NUMBER	UPC/DCI/NAED MFG #01 8997	DESCRIPTION	UNIT PKG	STD PKG
LV1XL	58178	Low Voltage Mounting Bracket Non-metallic, single-gang. Extra-long screws for use with finished wall surfaces from 1/4" to 1-1/2" thick.	10	100
