

Split Grounding Bushings

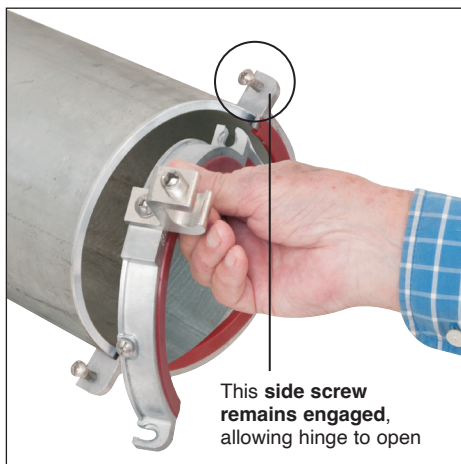

Easy to use on Threaded or Unthreaded Rigid/IMC • Rigid • EMT

EASY TO INSTALL
THREADED and UNTHREADED RIGID and IMC

1 Loosen side screws to allow bushing to pivot around installed cables

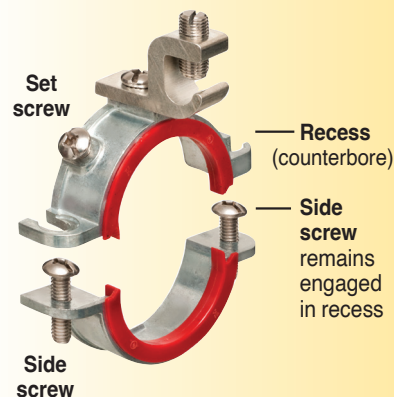

2 Tighten set screw to seat split grounding bushing securely on conduit

Arlington's **550 series** zinc diecast – and **new 5 and 6 inch aluminum diecast** split grounding bushings deliver convenience and time-savings. They're split to allow the addition of a bushing **BEFORE** or **AFTER** cables are installed in metal conduit.

- Easy installation on EMT, threaded or unthreaded Rigid, IMC
- Available in 1/2" to 6" sizes for IMC and RMC
- Compatible with 2-1/2" to 4" EMT
- For Steel or Aluminum IMC or RMC
- Ships Assembled
- cULus Listed
