UNSNAPIT™ Connector Removal Tool

For Arlington & Others' Snap-in Connectors • Fits 1/2" Trade Sizes

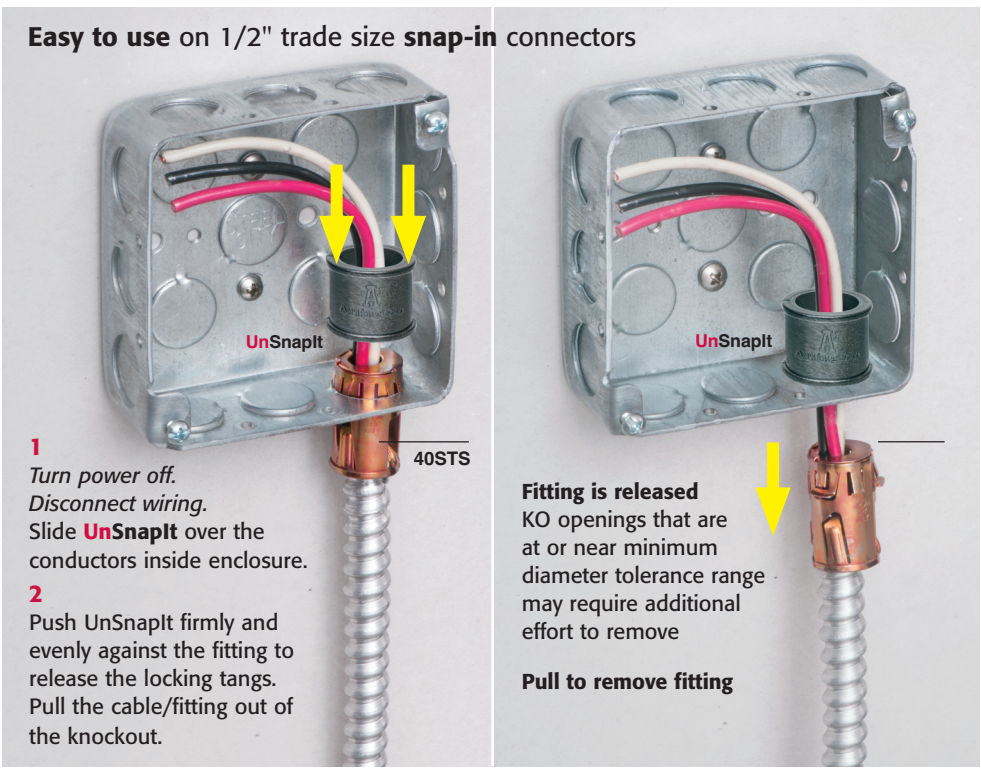

UNSNAPIT™ ...the easiest way to remove an installed Snap-in Connector from a knockout – faster than a screwdriver!

Arlington's new **UnSnapIt™** connector removal tool is the easy-to-use solution to removing Arlington's 1/2" snap-in connectors from an electrical box or enclosure.

UnSnapIt works on Arlington's 1/2" trade size **SNAP-TITE®** and **Snap²It®** connectors – as well as other manufacturers' snap-in connectors.

- You can still use a screwdriver to separate the ring and remove our snap-in connectors from a box.
- Using the **UnSnapIt** Connector Removal Tool is just faster and easier!
- Easy on bare hands – and easy to use

Easy to use on 1/2" trade size snap-in connectors

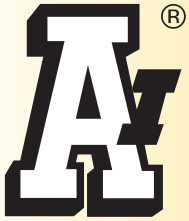

1
Turn power off.
Disconnect wiring.
Slide **UnSnapIt** over the conductors inside enclosure.

2
Push **UnSnapIt** firmly and evenly against the fitting to release the locking tangs. Pull the cable/fitting out of the knockout.

Fitting is released
KO openings that are at or near minimum diameter tolerance range may require additional effort to remove

Pull to remove fitting
